did you know...

...that in 1877 Dr. James Ferguson purchased Prospect Mountain, renamed it Mt. Ferguson, and built a hotel high above the lake. This was destroyed by fire in 1880; however, it was soon rebuilt. It was purchased by William Peck, who had Otis build a cable railway to the top in order to avoid the tedious trip by horse and buggy. The railway opened in 1895, but the operation was forced to close in 1903 due to lack of business. In 1925, George Foster Peabody, who had acquired the property, donated it to the State. Today, the 100 mile scenic view is a must on a clear day.

Hiking Trails

BUCK MOUNTAIN
Elevation: Almost 2000 ft. • Map D-5
Round Trip: Over 6 mi., Time: 4 hrs.
Directions: Northway to Exit 21. Traveling on Route 9L along the east side of Lake George, turn left onto Pilot Knob Rd. for 3 miles, to sign. (Follow yellow DEC markers where indicated.)
The lovely sight of the mountains and boats makes for an excellent hike.

PROSPECT MOUNTAIN
Elevation: 1650 ft. • Map E-4
Round Trip: 4 mi., Time: 3 Hrs.
Directions: In Lake George Village, turn west from Route 9 onto Montcalm St. and proceed 5 blocks to Cooper St., turning right one block to West St., and then left one block to Smith St. where you turn left again. Up a short distance is an elevated walkway that crosses over the Northway. Great for picnics. A splendid panoramic view.

Lac du Saint Sacrement

Lake George Steamboat Company

The newest addition to the Lake George Steamboat Company's fleet of excursion vessels is a modern dinner-dance showboat with the character and grace of 19th Century steamers. Designed as a 3/4 scale replica of the 2800 passenger steamer S.S. Peter Stuyvesant, the Lac du Saint Sacrement is 190' in length with a beam of 40' and can accommodate 1000 passengers for sightseeing, cocktails and hors d'oeuvres and 350 for dinner and shows. The name Lac du Saint Sacrement in English is translated "The Lake of the Blessed Sacrement" given to our lake by the Jesuit Priest, Father Isaac Jolques, who first came upon the lake on the eve of the Feast of Corpus Christi in 1642. Naming the lake in honor of the holy celebration, the lake retained its original French name until 1756 when the English won the French and Indian War and renamed the lake in honor of the king, George III, thereby

calling it Lake George. The Lac du Saint Sacrement is built of all steel and to U.S. Coast Guard and American Bureau of Shipping Standards. She is propelled by caterpillar diesels, has all modern rescue boats, life jackets for every passenger, an

emergency generator, and dual operating capability for its safety systems. No combustible furnishings are on board. It boasts four passenger decks, three of which are air-conditioned and heated. The vessel has a full galley, three cocktail lounges, a dance floor, snack counter, and a gift shop. The upper two decks are open for lounge chairs. There is a wheel chair lift between her first, second and third decks. Her single stack that measures 20' high and 7' across accentuates her stately appearance. The Lac du Saint Sacrement will certainly help carry on the company's 200 year tradition of fine vessels

BIKING!

Welcome to Warren County and the Lake George Region where we have miles and miles of scenic roadways to explore and a wonderful bike trail on which to take a relaxing trip!

So what are your options? Well first, the Warren County Bike Trail runs along the old rail line from the south end of Lake George down to Queensbury (where it crosses Quaker Road over a large bridge). From the village to Queensbury is approximately 8 miles on a paved, rolling bike path. Most of the trail is a dedicated bike route but the last 1.5 miles consists of a dedicated bike lane along the county roads. The bike trail is largely

what you choose to make it. Serious cyclists can ride this trail for training as easily as someone looking for a casual ride can enjoy it for a leisurely afternoon ride. It is hilly (you are in the Adirondack Mountains right?) but it is very rare that someone cannot manage to cycle their way around on it. And after all, you are on vacation, so if you have to get off and walk your bike up the hill near the Magic Forest, then what is the big deal? You are still out in the fresh air of which the Lake George Region has an abundance! A trip down and back on the bike trail from Lake George typically takes 2-3 hours for most families, but can be done in as little as an hour by a motivated cyclist.

Once you reach the Queensbury terminus, the trail connects into the Glens Falls City Trails and the Feeder Dam Trail System which

provides many more miles of riding for the serious cyclist. So our local trails will give everyone from children to competitive racers plenty of exercise and enjoyment during your visit.

There are also many wonderful roadways where longer rides will take the serious cyclist through forests and along lakes with wonderful views. Riding up, near and around Brant, Loon and Schroon Lakes in northern Warren County will provide both beautiful views and plenty of vertical gain for those who enjoy day long treks. A visit to Rick's Bike Shop or Inside Edge (both in Queensbury) can provide the competitive rider with the information they need to plan a challenging day of training.

And a final thought...please wear a helmet while riding. Just because you are on vacation doesn't make your head any harder or the

pavement any softer. Given that we only get one brain per lifetime, please treat yours with the respect that it deserves ☺

Need to rent a bike while on vacation? Please stop by and we will provide you with everything that you need. We are open 6am-8pm during the summer with slightly fewer daily hours in May, September and October. We are conveniently located on Route 9, right next to the Holiday Inn. Visit our website at www.beachroadbait.com or give us a call at (518) 668-4040 if you have any questions.

Thanks, and please always ride safely!

PROSPECT MOUNTAIN VETERANS MEMORIAL HIGHWAY

Vehicle entrance to Prospect Mt. is on Route 9 in Lake George (1/2 mile south of village) – opposite the Lake George Chamber. Look for this sign (pictured right). Admission: \$10 per car load. Hours: 9AM-5PM Memorial Day Weekend thru mid/end October (depending on weather). Info: (518) 668-5198 (518) 668-3352 (518) 623-1200

Prospect Mountain is one of Lake George Region's iconic landmarks. This beautiful mountain, located in the foothills of the Adirondacks, has a 2030 foot summit with magnificent panoramic views of Lake George & the Adirondacks. It is very popular among tourists, locals, and hikers because of its 100 mile view at the peak!

Drive up to the summit on the Veteran's Memorial Highway, built and dedicated in 1969 in honor of America's War Veterans. Along this very enjoyable 5.5 mile ride, stop at three breathtaking overlook areas: 1. The Narrows, 2. Lake George Panorama, 3. The Eagle's Eye. At the Summit, park your car and ride the Prospect Shuttle (an open air view-mobile during the summer season and an enclosed van during cooler months) to the peak for a spectacular panorama of Lake George and the region. Picnic facilities and restrooms are also available on the summit, as well as self-guided hiking & nature trails which are well marked. Discover the historical ruins including the Bullwheel and the Old Cable Railway. See the remains of what was once the world's largest cable railroad from 1895-1903. This Cable Railway brought passengers for an overnight stay at the Prospect Mountain House, a hotel once located at the summit.

View from The Eagle's Eye overlook

Have You Seen

"The Adirondac"

"Launched in 2004, the "Adirondac" is the newest cruise ship on Lake George, though her elegance and style are derived from ships of years past. Her 19th Century style is accentuated by the beautiful mahogany and cedar trim that surrounds the aluminum hull of the 115' boat. This three-decked ship is perfect for weddings, corporate functions, and events of all kind. The first two decks are entirely glass-enclosed with a capacity to hold up to 400 people for dining and dancing. One can even dance the night away under the stars, as the second floor's atrium retracts to reveal the beautiful Adirondack sky. On the third floor you'll find an observation deck, perfect for glimpsing at the exhilarating view – as well as a bridal suite, complete with a dressing area and lovely, comfortable furniture – to help you relax on your big day. Along with her sister ship, the Horicon, the Adirondac runs daily cruises throughout the duration of the summer. "The Adirondac holds 2 hour Bay Cruises, Wed-Sun, boarding at 11:30 am and 2:00 pm with a delicious a la carte menu available for purchase." "She also sails for delectable dinner cruises Friday-Sunday from 6:30pm - 8:30pm. Not to mention the spectacular fireworks dinner cruises held on Thursdays in July &

August! But don't forget about the Horicon! This beautiful 85' yacht departs on cruises every 1.5 hours beginning at 10:30am and entertainment cruises on Fridays and Sundays through August 30th. We'll see you on the water!"

PARASAILING

By Patrice McMahon

Parasailing Adventures

What does Lake George look like from above? Visitors who have been parasailing know! Aloft in a parachute 300' in the air, attached with a rope to a speeding boat, parasailers have a bird's-eye view of the lake and surrounding area.

While pondering a new way to instruct fledgling skydivers, Pierre Lamoigne couldn't have known that he was making aviation sport history when in the early 1960's he attached a parachute to his moving car and invented parasailing. In the 1970's parasailing moved to the water, at first launching and landing the participants from the shore, and then from specially designed "winch boats." These winch boats, made specifically for parasailing, are used nearly everywhere in the United States.

Parasailing has been a popular Lake George activity for many years, using a method that was somewhat unique to the lake. Traditionally, parasailers were taken to a floating raft and pulled from the raft by a speed boat. The longstanding Lake George method then landed the passenger back onto the raft.

After having been in the parasailing business for twenty-five years, Parasailing Adventures began offering a modern ocean-style parasailing on the Lake for the first time five years ago. On any given day, their winch boats can be seen flying visitors two by two and three at a time side by side in a larger, brightly colored parachute. Up to ten participants at a time enjoy a speed boat ride while waiting in the boat for their turn to fly. Parasailers sit

on the back platform of the boat, strapped into a harness. The parachute is filled with wind, then the winch is engaged, slowly releasing the line and lifting the flyers into the air. When the ride is complete, the winch brings the flyers back to the boat where they land gently standing up.

Widely perceived as a "daredevil" activity, parasailing is actually safe and fun for almost anyone. Our #1 priority is that you experience the thrill of a lifetime in a safe environment.

No swimming or flying skills are necessary! Our staff provides all the skill! Our captains are USCG certified professional parasail captains with a combined 47 years of accident free experience.

Reservations for parasailing with Parasailing Adventures can be made by calling 60-PARASAIL (607-272-7245) or visiting our website at www.parasailingadventures.com

TUBBY TUBES COMPANY!

By Eric Hamell - Owner/ Operator of
Tubby Tubes Company
Outdoor Fun Park

Tubby Tubes has been providing safe, memorable family fun for our guests for over a decade. We are the leading lazy river tubing outfitter in the Adirondacks. We were the first company in New York to offer guided lazy river tubing. Since opening in 2001, thousands of families from all over the Northeast have enjoyed visiting Tubby Tubes. We are dedicated and focused on providing our guests with the best equipment, guides, and outdoor experience possible. All of our river guides are professionally trained, friendly and knowledgeable about the great outdoors of the Adirondacks.

One of our newest and most popular additions to Tubby Tubes is our unique, year round downhill tubing park. Our park is one of only a hand-

ful in the entire country. Downhill Tubing is basically a snow-less version of winter snow tubing. We provide a tube-tow that

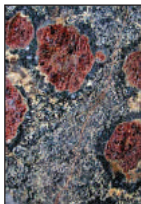

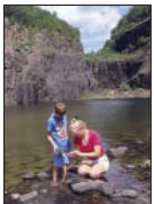

gives our guests a lift to the top of our hill. All you have to do is sit in your tube and then let the lift do all the work. Our tubing runs are made of a special material that allow our tubes to glide effortlessly downhill at the same speed as snow. This material is also used at the Olympic Ski Jump in Lake Placid, NY. Each of our tubing runs are unique and offer a different terrain to add to the excitement. Guests can tube solo or group together in small or large groups for extra speed and fun. Our tubing hill is designed for maximum efficiency for guests. It has a compact design which allows for less standing in line and more tubing fun. A small hill with big thrills!

Come spend a day with Tubby Tubes Company and build some great memories for a lifetime. Get the total experience with a full day adventure pass which allows you to choose any river trip and unlimited downhill tubing for the entire day. We also have great food available at our snack bar so our guests can enjoy a nice lunch or snack before, after, or during your visit to Tubby Tubes. We are located in Lake Luzerne just 5 minutes from Lake George Village, exit 21 of I-87. Visit us at www.tubbytubes.com or call us at 518-696-7222. We look forward to your visit. Come be a Tubby Tuber! Check us out on pages 7 & 63.

Garnet Mine Tours and The Gore Mountain Mineral Shop
1126 Barton Mines Road, North River, NY 12856 • (518) 251-2706
35 minutes from Lake George (Map C-2)

Treasure hunting at one of the most beautiful garnet mines... where the largest GARNET CRYSTALS in the world are found. This GARNET is treasured by gemologists, is used as an industrial abrasive, has been designated as the Empire State gemstone, and is popular as a January birthstone.

Besides garnet jewelry, great toys and gifts, the gem shop has an exquisite collection of garnet gemstones and beautiful raw garnet rock for fireplaces and landscaping.

A tour of the mine site includes a lecture about the gemology, mining history, and present day uses. FUN FOR ALL AGES - Prospect and Discover your own garnet gemstones!!! STRIKE IT RICH!

did you know...

...that one of the world's largest concentrations and formations of January's birthstone, garnet, was discovered in the 1870's in North River. Barton Mines, the "longest running family-owned mining industry" was established in 1878, and tours of the mine have been offered since 1933.

...that in 1969, garnet was named New York State's official gemstone.

...that the cornerstone of the new Freedom Tower, which will be the tallest skyscraper at the site of Ground Zero, New York City, is a 20-ton block of garnet 119 x 67 x 47 inch piece of rock quarried at the Garnet Mines in North River, NY.

...that garnet is New York's official state gemstone, and is most appropriate that it is part of the foundation of the Freedom Tower, which is inscribed, "To honor and remember those who lost their lives on September 11, 2001 and is a tribute to the enduring spirit of freedom."

ADIRONDACK ADVENTURE CENTER - A perfect way to spend your day in the beautiful Adirondacks. Whether you choose lazy river tubing or treetop adventures, your time with us is guaranteed to be an experience you won't soon forget. With our professional guides, native to this area, you will have the opportunity to experience the region in a fun, safe, and unique way! The A.A.C. is #1 in family fun! (518) 696-6133 p.34

ADIRONDACK EXTREME - BEST OF WINNER - Others have tried to imitate but will never duplicate. Enjoy bragging rights after you triumphantly conquer the United States' largest tree-top adventure course. Ziplines, aerial skateboard, Tarzan swings. Open April - November. Explore nature through a combination of outrageous obstacles and challenges including zip lines, suspended rope bridges, tarzan swings, swinging surprises, nets, and ladders. Spend up to 4+ hours of sheer excitement trekking from tree to tree on our adult course options. Please allow 1 to 1 1/2 hours for the Kids Course. **Our Six (6) Course Package** (12+) offers more than 130+ obstacles and 15 ziplines. **Five (5) Course Package** (12+) offers more than 120+ obstacles and 13 ziplines. **Four (4) Course Package** (9+) offers more than 100+ obstacles and 11 ziplines. Two Childrens Courses (6+) offers 30+ obstacles and 3 ziplines. The Squirrels Den Playground make this adventure fun for the entire family. Perfect for families, parties, schools, summer camps, groups, and corporate outings. What to Expect: Fun, freedom and personal reward are what Adirondack Extreme is all about. Owned and operated by The Johnson Family of Lake George NY since 2007 Adirondack Extreme is the flagship park of adventure park builders Outplay Adventures. The United States' first aerial adventure course boasts an exhilarating tree-to-tree experience for all ages and fitness levels. After being fitted into your harness, you'll attend a brief training session that will allow you to move through a series of surprising and progressively challenging tree-top adventures. Our friendly ground patrol staff observe and motivate you along the way and help ensure a safe and memorable experience. p.7

ADK EAGLE FLYER - Are you ready to fly? The Lake George region's most exhilarating new attraction — Adk Eagle Flyer High-Speed Zip Line — offers a one-of-a-kind experience from the summit of French Mountain. Soar above the treetops as high as 125 feet off the ground, with unsurpassed views of Lake George and the spectacular Adirondack Mountains. Speed down a nearly 1,000-foot vertical drop at 50 miles an hour, before gliding in for an incredibly smooth landing. Flyers can enjoy the three-quarters-of-a-mile journey seated. It's an Adirondack adrenaline rush like no other! The fun begins before you even reach the platform. Ride to the top of French Mountain aboard one of our Austrian Pinzgauer military off road vehicles. Four side-by-side high speed ziplines allow you and your friends to race each other down the mountain. Operated by Adk Extreme LLC. Adk Eagle Flyer is designed and built by Zip-Flyer, the world-renowned engineer of some of the longest and fastest zip lines in the world, in places like Nepal, Vail and Breckenridge, Colorado, Lake Tahoe and Las Vegas. Together they've launched Lake George's most eagerly anticipated attraction in years. Adk Eagle Flyer Zip Line — Lake George, NY. Get ready to earn your wings! p.6

ADIRONDACK GUN & RANGE - Come check out the regions premiere indoor gun Range and full retail shop! Great for families with our kids airsoft Range. We are open to the public and welcome locals and tourists alike with gun rentals available. Come check out our huge selection of new and used guns, ammo and accessories. Located just north of the Lake George Outlets. 1540 State Rt 9, Queensbury. (518) 792-1911. #adkgun p.60

ADIRONDACK MOTORCROSS - ADK MX is a new, family oriented, professionally built motocross facility located minutes off I-87, in Fort Ann NY. The track is suitable for all skill levels from first time riders and beginners, to national level racers. This track was built on a golf course and consists of a red dirt and clay mixture that has NO ROCKS, making it one of the best track surfaces you can find. It is groomed regularly, fully irrigated and features 4 Table Tops, Step On, Step Off, Bermed Corners, Flat Corners, Sweeping Turn, Rollers, Ski Jump, Double, Triple, Sand Section, Off Camber and Downhills. Add 23 acres of parking, and an on-site restaurant and you truly have a one of a kind motocross complex. In the winter, there are groomed, intermediate and advanced Cross Country skiing trails on-site (3k & 5k). With large flat parking lots there are plenty of room for trailers and direct access to the areas main snowmobiling trails. After riding, warm up Country Meadows Restaurant with food, full bar and fire pit - open all year. www.adkmx.com ... p.24

ADVENTURE FAMILY FUN CENTER - Your rainy day adventure center! Largest outdoor go-kart track in the area, bumper cars, paintball shooting gallery, three-level Star Wars laser tag, the newest and classic arcade games and pinball, Graffiti Free Fall, food concessions, birthday parties, fundraising, and team-building. Group rates are available. (518) 798-7860 AdventureFamilyFun.com . p.3

ARO - Choose your whitewater adventure! Great family adventures; summer rafting with guaranteed Class II and III rapids, our new Adventure Center with a challenging Aerial Ropes course, canoe rentals, and a forested paintball area. Let us help you plan a family vacation in the Adirondacks with a bit of adrenalin thrown in. A day of fun, a lifetime of memories. 1-800- 525-7238. aroadventures.com p.66

"Do You Know the History of Miniature Golf?"

by Mary E. Giella, owner
Lumberjack Pass Miniature Golf

The game of miniature golf began in the early 1900's as "Golf in Miniature," or a short game of regulation golf. The courses were built to emulate the regulation courses complete with a country-club atmosphere and lush greens. Some of the courses even had caddies! Miniature golf was one of the first sports to be played in the evening -- they were strategically built under lights of billboards or other areas lit brightly enough to allow evening play. It became "the thing to do" in the evenings after attending balls and galas. It was common to find these courses open until 4 AM.

With the Stock Market Crash of 1929, regulation miniature golf became too expensive for most people. In spite of this, the desire to play continued to flourish. And so began the game of "Rinkiedink" golf. Obstacle or hazard holes were developed through the use of anything that could be scavenged; wagon wheels, barrels, pipes, etc. Some of these "scavenger ideas" became so popular that they became the models for the obstacle-laden courses that we still see today. Miniature golf was very popular among movie stars and celebrities which helped to spawn new courses throughout the country. Tom Thumb Golf was the first trade name developed and patented for miniature golf. These courses were in demand nationwide and resulted in the "1930's Miniature Golf Gold Rush." Unbelievably, in the 1930's there were approximately 30,000 courses in the country with over 150 rooftop courses in New York City. It was a popular game in America - a leisurely game that could be enjoyed by any gender, at any age, without concern for athletic ability or handicap, much as it is enjoyed today.

During the 1980's, adventure-style course became popular with exotic names such as Montasia and Adventure Island. Many were built in tourist destinations. Myrtle Beach, South Carolina, became the miniature golf capitol of the world. The early 1990's, however, saw a downfall in the adventure themed course. This downfall is attributed to the fact that themed courses are patronized until the newness wears off.

In the mid 1990's, the American public was given the opportunity to once again play the game of miniature golf as it was played in the 20's -- courses once again were designed to hold the interest of players while playing a game of "Golf in Miniature." The current courses are built to give the players more of a country club experience with lush gardens, meandering streams, waterfalls, and real rock formations. The greens are complete with undulations, contours, water and sand traps. Many of these newer courses are now built around a family entertainment center concept offering food and beverages.

We hope you enjoy your miniature golf experience in the Lake George Region, or as we like to call it -- the Miniature Golf Capitol of New York!

So Now You Know!!

Hours: Open rain or shine 9:30 AM - 5 PM May 5th - October 31, 2018 p.64

Attractions

Attractions Continued from Page 20

FORT WILLIAM HENRY MUSEUM - During the French and Indian War the British built Fort William Henry as part of their plan to protect Fort Edward, Albany and the British colonies to the south. In 1757, after surviving two years of raids and attacks, and following a six day siege, the Fort fell to the French and her Native American allies. Faithfully reconstructed in 1953 on its original site, she once again stands proudly overlooking Lake George. The Fort museum is open daily May through October. Military demonstrations are held several times a day and include cannon and musket firing demonstrations. The Fort also offers ghost tours and special evening programs (reservations required 518-964-6649). Rain or Shine. The Sutler Shoppe, located inside the fort, offers a large variety of gifts and souvenirs and is open to the public daily (no admission charge to visit the shop). For information: (518) 668-5471 or fwmmuseum.com p.72

THE FUN SPOT - Entertainment for all ages! Gold Rush Adventure Golf is an interactive course featuring cascading waterfalls, streams, and caves. Participate in our mining experience and feed the fish in our Koi pond. Race on our uniquely designed LeMans Go-Kart track with hairpin turns, bridge and underpass. Little ones can drive themselves on the Mini Racers or ride as a passenger on the Main Track. Go-Karts and Adventure Golf are Open April thru October. Year round activities include our New Ninja Challenge Course where everyone can test their ninja skills; our Kid's Spot Indoor Play-ground for children up to 58" tall; Multi-level Laser Tag; and Roller Skating/Blading to today's Top 40 Music. Our Snack Bar features all the favorite hot and cold food items. Meal Deals and catering options available. Group Rates and Private Party Times available. (518) 792-8989 TheFunSpot.net . p.16

GARNET MINE TOURS - Come take a Mine Tour and strike it rich treasure hunting at one of the world's largest garnet mines. Includes...Rocks and Garnet collection, Mine History and Geology Lecture, and Mineral Shop with fabulous shopping - gemstones, jewelry, exciting science and nature toys, and raw garnet rocks for fireplaces and landscaping. Exquisite! Fun For All Ages. p.18

GOONY GOLF - Lake George's largest 18 hole miniature golf course. The course is loaded with all the nostalgic figures you would expect to find on a mini golf course. Navigate your ball through a 20 foot giant T-Rex, or around our many waterfalls. Of course we have a wind mill and many other obstacles to challenge your game. Goony golf is mini golf the way it was supposed to be played. Stop by and see why we have been creating memories for more than 40 years. Located just off exit 21 on the corner of Rt 9 and 9N in Lake George. ... p.6

LAKE GEORGE LANES & GAMES - If you're looking for a place to play and eat with your friends, our Family Entertainment Center is the place to be! We have open lanes every day, the latest state-of-the-art Redemption Arcade, custom Adirondack themed multi-level Laser Tag and Galactic Bowling with specialty lights & music! Booking birthday parties and group events. (518) 668-5741. LakeGeorgeLanesandGames.com. p.13

LAKE GEORGE HISTORICAL ASSOCIATION MUSEUM - Visit the Old County Courthouse Museum and Jail Cells built in 1845 and become acquainted with the history of the Lake George Region. On exhibit within the walls of this National Historic Register building are paintings, documents, photos, artifacts, and furnishings from the Lake George Historical Association's collection. p.22

LAKE GEORGE STEAMBOAT CO. - Sail the Lac du Saint Sacrement, the Minne Ha Ha, and the Mohican and experience the pristine beauty of Lake George, the picturesque islands, the mountain wilderness, historic mansions, and splendid lakefront scenery. Learn the history, ecology and geology. Lunch, brunch, dinner, fireworks, and sightseeing cruises. 1-800-553-2628 or (518) 668-5777 LakeGeorgeSteamboat.com p.9

THE LAKE THEATRE - This unique combination of casual dining and professional theatre entertainment (performing at the Holiday Inn Resort, Lake George) celebrates its 50th season with two productions this season. **JERRY FINNEGAN'S SISTER** - Brian Dowd has spent most of his life wrestling with a colossal crush on his best friend's sister, who happens to live next door. But every time he speaks with Beth Finnegan, he ends up with his foot in his mouth. Now, Jerry Finnegan's sister is getting married and Brian has to determine what went wrong. In a series of fast-moving, hilarious flashbacks, two actors play Brian and Beth as children, adolescents, teens and young adults ... right up to the uproarious, yet touching, finale. This show runs July 20 through September 1. **THE LONG WEEKEND** - Non-stop mischievous fun and scrumptious plot twists! Max and Wynn are showing off their beautiful new country home to Roger and Abby. However, a relaxing weekend turns into a battle of wits, as these four "best friends" slowly discover how they really feel about each other. The gloves come off and old scores get settled in a riotously tangled web of truths, lies, and surprises that leaves the audience guessing - and laughing - through the final curtain! running from September 14 through October 13. Dinner Shows: Wednesdays thru Saturdays. Luncheon Matinee Shows: Tuesdays, Wednesdays, Thursdays. Show-Only tickets also available. Box Office at (518) 668-5762 x411. Info and online tickets at LakeTheatreProductions.com p.38

Island Camping

Island camping on Lake George, which is only accessible by boat, is known to be one of this region's most unique adventures.

Island campsites on Lake George are divided into three groups including: Glen, Long and Narrow - which are located in different areas of Lake George. Each of these groups have their own headquarters for reservations/registration (which is a requirement). All 387 shoreline campsites are located on 44 state owned islands in Lake George. Tents, motorized boats, fishing, hiking, and nature trail use are permitted. Each site is heavily wooded and private, allows at least one boat, and includes a picnic table, fireplace and toilet facility.

Cruiser sites (spaces for boats for day use only but with no sleeping quarters) are available in the Glen Island Group. Charcoal burners and privacy are provided for these sites.

Glen Island Group

170 campsites and 42 cruiser sites. Located in The Narrows of Lake George (not to be confused with the Narrow Island Group listed below) east of Bolton Landing. Launch from the Bolton area. (518) 644-9696.

Long Island Group

90 campsites. Located in the southern end of Lake George. Launch from the Lake George Village area. (518) 656-9426.

Narrow Island Group (Mother Bunch Group)

85 campsites. Located in the Mother Bunch, northern part of Lake George. Launch from Silver Bay or Huletts Landing. (518) 499-1288.

Reservations & Information: required campsite reservations may be made with Norowal Marina in Bolton Landing (which is now operated by Bolton Local Development Corporation) by calling (518) 644-9125. More info on reservations, fees, and regulations may be obtained by calling or visiting: www.dec.ny.gov/outdoor/24474.html

Attractions

LUMBERJACK PASS MINIATURE GOLF - Our course was ranked #5 on Earth by entertainmentdesigner.com! We are the Lake George Region's largest, least expensive, and the only mini golf course in the region to offer our players a free soft serve ice cream treat for each paid admission. Our players say it best - We are the best deal in town! Our course features 18 challenging championship holes in a beautiful Adirondack setting complete with a natural stone waterfall and meandering streams throughout giving every hole a water hazard - don't worry, we have nets to help you get the ball out of the water! And, don't forget the sand traps, misting stations, and real golf course ball washers! We look forward to seeing you soon! p.21

MAGIC CASTLE p.19

- Indoor Miniature Golf - Unique & challenging course featuring 18 holes.
- Motion Simulator - Thrill to high speed action on the motion simulator, the SRV!
- Max-Flight - The most intense 360° ride you've ever been on.

MAGIC FOREST - Celebrating 55 Years! A family fun park with 25 rides and 3 shows including a mile long safari ride. Featuring the only diving horse show in the country. Magic Show, Macaw Bird Show, Feed baby animals. (518) 668-2448 MagicForestPark.com p.3

MAJESTIC BALLOON FLIGHTS - Experience a 360 degree view from the basket as we float peacefully over rolling farmlands and small communities. Go as high as 3,000 feet above the ground or low enough to wave to people as you pass over them. If you're daring, you could even reach out and touch a leaf from the top of a tree. A balloon ride is a once in a lifetime opportunity. It's an experience like no other! (518) 926-9123. MajesticBalloonFlights.com... p.8

NATURAL STONE BRIDGE & CAVES PARK - Explore self-guided above ground nature trails to see the largest marble cave entrance in the east - potholes, gorges, with optional descents into lighted caves with rushing waterfalls or tranquil pools. Rock & Fossil Shop, Gold Rush, Crystal Quest & Gemstone Mining, Dino Dig, Geode Cutting, Gift Shop, Food, Fudge, Soft Ice Cream, Disc Golf, Picnic Pavilions & Play Areas. Over 14 miles of well-groomed Snowshoe Trails to explore in the winter. Season Passes available. (518) 494-2283 StoneBridgeandCaves.com p.8

OLD FORT HOUSE MUSEUM - Constructed in 1772 as a private residence for Patrick Smyth. One of the oldest frame structures in Upstate New York and was the headquarters for both British and American generals in the Revolutionary War. Focal point of a museum campus which includes several additional buildings. Guided tours. Gift Shop. (518) 747-9600 OldFortHouseMuseum.com p.38

PAINTED PONY RODEO - Professional Rodeo: Saddle Bronc, Bare Back, Tie Down & Team Roping, Steer Wrestling, Barrel Racing, and Bull Riding. Texas style BBQ buffet every Rodeo night! Rodeos rain or shine - new covered grandstand. 64th Season. p.65

PARASAILING ADVENTURES - Don't miss your chance to cruise the clear blue skies over beautiful Lake George with Parasailing Adventures! You'll experience the thrill of power boating, hot air ballooning, hang gliding, and parachuting at only a fraction of the cost. Rides are available in single, double and triple rides as you fly over the lake as high as 300 feet! Open daily from 8am-7pm. (607) 272-7245 ParasailingAdventures.com p.15

PARASAIL JOE'S - Soar high above Lake George and see it in a way no one else can. The breathtaking views from 200-400 ft. in the air are spectacular and will be remembered for a lifetime. Family owned and operated National Water Sports (Parasail Joe's) has been operating in Lake George for almost three decades. With a 100% safety record and boat loads of experience, it's obvious that the safety and satisfaction of our customers is our number one priority. Look in the skies for our bright orange smiley face parasails and then come see us at 7 Christie Lane. We are the booth with the bright red roof located on the front of Christie's on the Lake Restaurant. Single, double and triple flights available (weather permitting) and don't forget to ask about our early morning discounts and pre-sale tickets. (518) 668-4013 ParasailJoes.com p.16

SPORT-FISHING

on beautiful Lake George

Fun for the whole family.....

Fish On! By Capt. Joe Greco
NewYorkFishing.Com

When planning your family vacation this year make sure not to overlook all the incredible fishing opportunities that the Lake George region has to offer. We are so fortunate to be able to fish these pristine waters that are teeming with life and continually produce non-stop sport fishing action season after season. With our tremendous populations of hungry Lake Trout, acrobatic Landlocked Salmon and hard-fighting Smallmouth Bass, fishing enthusiasts frequently leave our spectacular lake with sore arms and big smiles! Like most of the charter skippers on Lake George, there is nothing we love more than sharing our passion for fishing with our customers and showing them a great time out in the wild. Captains around the lake try their best to provide clients with the ultimate light-tackle sport fishing experience designed for anglers of all skill levels. Book a fishing charter on Lake George and we bet you'll leave with long lasting memories "setting the hook" on one of the most beautiful lakes in the entire country.

Lake Trout and Landlocked Salmon, our "bread and butter" if you will, are two of the most highly sought after game fish in the lake. We pursue these species from ice-out to ice-up meaning basically all of the open water season from April to December. These species are targeted using light-tackle rods and finesse trolling programs in which downriggers, planer boards and other state of the art equipment work together to put fish on the end of your lines. We have seen incredible Lake Trout numbers over the past few years and an increase in the Landlocked Salmon population as well. Due to diligent stocking efforts and the introduction of a new "Sebago" strain of Salmon, we are finally starting to see a rebound in the salmon fishery which in past years has been struggling for reasons undetermined. We love chasing these majestic "silver ghosts of the open water" as they hit hard and can be very unpredictable once hooked. They will regularly challenge you by charging the boat or making numerous leaps out of water before making it to the landing net, if you're

lucky! Last year was one of our best years for Landlocked Salmon in a long time with many fish caught over five pounds and a few tremendous specimens boated in the eight to nine pound class. We are excited for the upcoming season and anticipate another banner year of salmon fishing.

Lake Trout fishing has been very consistent and there has been no shortage of action. We are seeing very healthy looking fish and have been marking large amounts of baitfish on our Lowrance fish finders regularly. These fish can be found all over the water column in the springtime and will tend to gravitate to deeper water during the peak summer months in search of cooler water temperatures. These fish are "eating machines" and generally provide clients with consistent action year-round. We love watching clients- and in particular children- hook-up with big Lakers! Catching these hard-fighting fish on light tackle is a one of a kind experience you'll never forget!

If you want lots of rod-bending action then you may want to check out our Smallmouth Bass fishing. During the peak months of July, August and September we search for large schools of hungry Bass which- at this time of year- tend to hang out on deep structure all over the lake. We typically will anchor over these fish and use light-action spinning gear providing all anglers aboard with a hands on experience. These trips are action-packed and usually produce some pretty big numbers of Bass and Perch, with even an occasional lake trout or Northern Pike in the mix. Pound for pound, the Smallmouth Bass is arguably one of the hardest fighting freshwater species and they are an absolute blast to catch on light-tackle!

We hope you consider hitting the water this year for a fishing adventure that is truly one of a kind. Being on the gin-clear waters of Lake George, with a first-class view of the majestic Adirondack Mountains, is just what the doctor ordered to relax, unwind and spend some quality time with our loved ones. Consider a fishing charter with one of the lakes' seasoned guides for a few laughs, some great views and oh yea, hopefully an Adirondack fishing experience you'll never forget!

THE LAKE THEATRE - This unique combination of casual dining and professional theatre entertainment (performing at the Holiday Inn Resort, Lake George) celebrates its 50th season with two productions this season. **JERRY FINNEGAN'S SISTER** - Brian Dowd has spent most of his life wrestling with a colossal crush on his best friend's sister, who happens to live next door. But every time he speaks with Beth Finnegan, he ends up with his foot in his mouth. Now, Jerry Finnegan's sister is getting married and Brian has to determine what went wrong. In a series of fast-moving, hilarious flashbacks, two actors play Brian and Beth as children, adolescents, teens and young adults ... right up to the uproarious, yet touching, finale. This show runs July 20 through September 1, 2018. **THE LONG WEEKEND** - Non-stop mischievous fun and scrumptious plot twists! Max and Wynn are showing off their beautiful new country home to Roger and Abby. However, a relaxing weekend turns into a battle of wits, as these four "best friends" slowly discover how they really feel about each other. The gloves come off and old scores get settled in a riotously tangled web of truths, lies, and surprises that leaves the audience guessing - and laughing - through the final curtain!; running from September 14 through October 13, 2018. Dinner Shows: Wednesdays thru Saturdays. Luncheon Matinee Shows: Tuesdays, Wednesdays, Thursdays. Show-Only tickets also available. Box Office at (518) 668-5762 x411. Info and online tickets at LakeTheatreProductions.com.p.38

Lake George Region Geology

The glacial geology of the Lake George region has been influenced by millions of years of sculpturing and carving by ice and water. With extremely powerful forces of nature at work, great sheets of ice moved across the area acting as giant sheets of sandpaper. The rocks and boulders frozen in the base of the ice ground down mountains, gouged out valleys, and rounded both as the ice moved forward from north to south.

As the glaciers retreated, they melted more rapidly than when advancing, thereby, depositing enormous amounts of

water along with ground up rock and debris stored in the ice over its million year journey. Lakes such as Glen, Paradise, and Sunnyside were formed from broken-off chunks of a glacier deposited in low areas and melted. Other lakes, ponds, and swamps were formed from the ice disrupting the drainage of existing streams.

Many glaciologists feel that we are presently in a warmer period of temperatures between glaciers, and that ice sheets will again cover the Lake George region and surrounding areas.

did you know...

that the body of water commonly known as Lake George has an approximate area of 28,200 acres, an elevation of 322 feet, a maximum depth of over 200 feet, a length of 32 miles, a maximum width of almost 4 miles, about 44 square miles of surface area, almost 20% of its water from underground springs, and a surprising 8 years to exchange its volume of water. Since the lake flows south to north, the northern end in Ticonderoga becomes the LaChute River and gradually drops around 215 feet into Lake Champlain. Lake George also contains approximately 186 islands, 154 of which are state-owned with about 50 available for camping and some 30 plus that are privately owned.

Have You Seen

LAKE GEORGE BATTLEFIELD PARK

Beach Road, Lake George, (Map E-4)

Heavily steeped in history, the 35 acre park was the scene of warfare between the Algonquin and Iroquois Indian tribes, and between England and American Colonies during the Revolution. Be sure to see these historic monuments: Statue of Father Isaac Jogues, the first white man to have seen Lake George; bronze sculpture of 'The Indian'; the figures of Gen. William Johnson and King Hendrick of the Mohawks.

Also are the remains of the southwest bastion of the Old Fort George stone fortress. Enjoy a beautiful picnic setting of trees with fireplaces, picnic tables, pavilion, water and sanitary facilities. Small parking fee.

SHEPARD PARK

Canada Street, Lake George (Map E-4) • In the heart of Lake George Village

Free swimming on a 350-foot beach, changing facilities, as well as a children's play area.

Enjoy magnificent views, a pier, and a lakefront walk. Weekly live entertainment in the Amphitheater. Public Restrooms.

OLD FORT HOUSE MUSEUM

Fort Edward Historical Association.
29 Lower Broadway Fort Edward, NY
(Map H-5) • (518) 747-9600

Constructed in 1772 as a private residence for Patrick Smyth, the Old Fort House is one of the oldest frame structures in Upstate New York and a focal point of a 3-acre museum campus. Built with timbers taken from the ruins of the French & Indian War fortification called Fort Edward, the house was used as headquarters for both British and American generals in the Revolutionary War. In July 1783, General George Washington and his party dined at the house on two different occasions. Permanent exhibits: *The Old Fort House Museum*, *1840 Toll House*, *Riverside Schoolhouse* & *The Schoolhouse Privy*, *1853 A. Dallas Wait Law Office*, *Cronkhite Pavilion*, *Water Works Barn*, & *Doctors Apothecary Garden*. Gift Shop has large selection of books on local history. Museum campus tours available.

Have You Seen

LAKE GEORGE VISITOR CENTER

Beach Road & Canada Street (Route 9) • Lake George (Map E-4)

The \$1.4 million dollar Interpretative Center is located on Route 9 and Beach Road and replaces the Village's former public restrooms. The center hosts visitors to the Lake George resort area and contains several exhibits highlighting Warren County's variety of attractions as well as environmentally-themed interpretative elements showcasing the importance of the lake to the entire region. The 2,800 sq. ft. building contains a walk-up information center, a visitor information room, several regional displays including an exact scale model of the lake and historical exhibits from throughout the county. The outside deck overlooks the lake and Blais Park and leads to new public restrooms above an actual cascading mountain stream utilizing water drawn from the lake. Other features include an interactive display on stewardship of the lake sponsored by the Lake George Association and information on all Warren County towns and the City of Glens Falls in the "County Room." Adirondack Studios of Argyle has worked with the Village on the internal design of the building that has become another central attraction in the community.

Hiking Trails

GORE MOUNTAIN

793 Peaceful Valley Road
North Creek, NY 12853

Self-guided 30 minute "eco loop" hikes available in both the Base Area and at Bear Mountain Summit with interpretive signage to keep you on track.

Guided hiking tours accompanied by a knowledgeable mountain host. These hikes are 2-3 hours long covering multiple peaks of the Gore Mountain range. Tours: Burnt Ridge, Bear Mountain Discovery, Colvin's Summit View, and Gore's Northern Frontier.

SANTANONI PRESERVE

Located in the hamlet of Newcomb, 16 miles northeast of North Creek on Route 28N, the Santanoni Preserve was formerly the Pruyn Estate. Because vehicles are not permitted, you will need to park and walk about 5 miles. You will be walking through woods and fields and passing old buildings and stone walls. Head for Newcomb Lake after the fork in the road. It's a great place to fish and have a picnic lunch. Plan on about 4 hours to walk in and out.

...that the six million-acre Adirondack Park is the largest in the contiguous U.S. It is by comparison as large as Yellowstone, Yosemite, the Everglades, Great Smoky National Park, and the Grand Canyon collectively. It is nearly three times the size of Yellowstone National Park.

...that New York State's Adirondack Park is a 6 million acre tract of public and private land occupying 1/5 of New York state's total land mass comprising approximately 11 counties

did you know...

and is the size of Vermont. It is almost 2,000 feet above sea level containing more than 2,600 lakes, 6,000 miles of wild rivers, 750 miles of marked hiking trails, 1,100 miles of groomed snowmobile trails, 250 miles of canoe routes, and 5,000 square miles bordered on the north by the St. Lawrence Seaway; to the south by the Mohawk River; on the east by Lake Champlain; and to the west by the Black River.

the Indian Tepee Gift Shop

est. 1960

is many shops under one roof and we invite you to step back in time to experience the charm of an old-fashioned country store, specializing in decorative accessories for the home and garden. Your senses will be tempted with the aroma of Adirondack balsam, scented candles and the sweet tastes of chocolate candy, fudge, jams and jellies, maple syrup and gourmet treats.

Chocolates by Adirondack Candy Man

Hand-crafted pottery is one of many specialties - from Adirondack decor to the Captain's Cove nautical wares to the Christmas Spirit's unique ornaments - make us a wonderland of browsing. So come - be part of a 50 + year old **FUN** shopping tradition. You're guaranteed not to see it all...so stay an hour or a day... **We'd love to see you.**

Walk away with a good deal.

Activities & Events

continued from page 35

June 30 - July 1, 2018 American Music Festival for the Lake - A very popular music festival in Lake George. Featuring artists such as Jamie Lee Thurston, The Lustre Kings, Vinny Michaels Band on Saturday; On Sunday: Amy Helm, Girls, Guns & Glory, Rasinhead. Free admission. Come enjoy the music and the view! 1pm. Charles R. Wood Park - 17 West Brook Rd, Lake George. lakegeorgechamber.com

July 5, 2018 Hike-A-Thon 2018 - The Lake George Land Conservancy's annual Hike-a-Thon is a one-day event held each July 5th, created to showcase LGLC's parks and preserves as free public resources, and to promote a healthy, active lifestyle and appreciation for the outdoors. Hikes take place simultaneously at locations around Lake George, culminating with aerial photography of each group by helicopter. The event also serves as a fundraiser for stewardship costs associated with the maintenance and enhancement of these properties. Lakegeorgehikeathon.org.

July 5, 2018 Lake George Community Band Concert - Come hear the Lake George Community Band perform at Shepard Park! Thursdays 8pm. Free admission. Shepard Park - Canada Street Lake George. lgcb.org

July 6, 2018 Ghost Tours - "With this much history, there are bound to be some ghost stories..." The area surrounding Fort William Henry has been the scene for countless battles, terrible disease and harsh climate. With hundreds of years of history, there are bound to be some ghost stories. Join us for a tour of ghostly places. See first-hand, the equipment used by investigators in their quest to research paranormal activity. Hear the stories that have been handed down over the years, as well as the personal experiences of those leading the tour. Tours every Wed-Sun nights @ 7:30, 8, 9, & 9:30pm. *Reservations are required for tours. Space is Limited. To make a reservation, call 518-964-6649. Fort William Henry - 48 Canada Street, Lake George. fwhmuseum.com

July 6, 2018 Glens Falls Dragons vs. Amsterdam Mohawks - Baseball. 7pm. East Field - 175 Dix Ave, Glens Falls. gfdragons.pointstreaks.com

July 7, 2018 Canellakis & Brown Duo - Cellist Nicholas Canellakis & Pianist Michael Brown, hailed as a pair of adventurous young talents; bring their superb musicianship and thrilling performances to The Sembrich. 7:30pm. \$40. The Sembrich - 4800 Lakeshore Dr. Bolton Landing. thesebrich.org

July 7 - 8, 2018 4th Annual Lake George British Music Invasion Weekend - Experience the phenomenon that is the Lake George British Music Invasion Weekend! Hudson River Music Hall Productions, Inc. presents their 4th annual British Music Invasion Weekend. 7pm. Charles R. Wood Park - 17 Westbrook Road, Lake George. festivalcommons.com

July 8, 2018 The Battle of Carillon Commemoration - Stand on the very ground and march out to the "Old French Lines," where French soldiers entrenched themselves during the epic Battle of Carillon on July 8, 1758. Join Fort Ticonderoga's Fife and Drum Corps to lay wreaths and remember the day-long battle where the British had suffered casualties of nearly 2,000 men killed and wounded. The Battle of Carillon would prove to be France's greatest victory of the French & Indian War. Preserved on the Carillon Battlefield at Fort Ticonderoga, is the largest series of untouched 18th-century earthworks surviving in North America. Legendary within the British & American army, personally remembered by many senior officers in both, this battle filled Ticonderoga with far more meaning than merely its strategic location. 9:30am-5pm. Fort Ticonderoga - 102 Fort Ti Road Ticonderoga. fortticonderoga.org

July 8, 2018 Glens Falls Dragons vs. Oneonta Outlaws - Baseball. 7pm. East Field - 175 Dix Ave, Glens Falls. gfdragons.pointstreaks.com

July 9, 2018 Adirondack Theatre Festival: On Your Marc - This feature-length documentary follows television icon Marc Summers, the host of Nickelodeon's Double Dare and Food Network's Unwrapped, as he rehearses and develops the live theater show about his life - The Life and Slimes of Marc Summers - that appeared at ATF in 2016. 7:30pm. The Park Theater - 14 Park Street, Glens Falls. parktheatergf.com

Travel Tips

• Always carry several plastic clothespins and a night light. The clothespins are handy for many things, from clipping the motel-room window drapes together, to rinsing out some things and being able to hang them over the clothes bar or towel rack. As for the night light, motel rooms are usually very dark, so this light eliminates having to turn on a bright light when you have to get up during the night.

• Fold a damp washcloth over a few ice cubes and wrap in foil. If heat and grime make you uncomfortable while traveling during the day, use to freshen your face and hands.

• Pack a family first-aid/medical kit. Checklist: alcohol wipes or antiseptic towelettes, adhesive bandages of different sizes, sterile pads, ointment or lotion for relief of insect stings and bites, anti-itch medication, tweezers, thermometer, gauze or cotton balls, small scissors, personal/prescription medicines, and carrying case.

Handmade Jewelry

Artist Judy Brown • GARNET STUDIO

There is a shop in the Adirondacks that makes its own jewelry... and it's called Garnet Studio!

In 1971, Joe and Judy Brown were married. They had a love of rocks and minerals in common and their honeymoon trip was to The Grand Canyon with stops at rock shops along the way. Joe started teaching school that fall and Judy started to work for a dentist. Their first big purchase as a married couple was a faceting machine to cut

Adirondack Garnets that they had collected over the years. Soon after, Judy took some classes to learn metal-smithing, and that was the beginning of a career in the jewelry business.

The Browns own Garnet Studio in North River. They share their love of gems with anyone that comes through the door. The Shop is a small boutique and a fun place to bring your girlfriends. Many a fashion show has taken place here. You can shop for that unique one-of-a-kind piece, or bring a group and learn to make earrings, necklaces or bracelets. If you are really adventuresome, Judy will take your group into her new cabochon cutting workshop and teach you how to cut a stone.

Joe facets mostly garnets, but they carry an amazing variety of other colored stones. A faceted stone is cut like

a diamond (with small flat facets on the top and bottom). The purpose is to get sparkle or flash. Each stone has angles that need to be used to get the best response from the gem that you are working with.

Judy cuts the cabochons with a flat bottom and a domed top. They are done freehand on a stick called a dop. Opals, Lapis and other opaque stones are usually cut this way. The cutting agent that is used in both faceting and cabbings is usually a diamond (there are about 3-4 different grits of diamond). The stones are then polished with diamond, aluminum oxide, or other polishes depending on the stone's requirement.

Come visit. It will be quite a learning experience!

Did You Know...

That Father Isaac Jogues, a Jesuit missionary from French Canada on a peace mission to the Mohawk lands to the south, was the first white person to see Lake George. Father Jogues made his discovery on the eve of the festival of Corpus Christi in 1646, and in honor of the day, christened the lake Lac du St. Sacrament or "Lake of the Blessed Sacrament." The English name of Lake George was given by General William Johnson in 1755 in honor to his majesty, King George The Second. A monument commemorating Father Jogues now stands in the Lake George Battleground Park at the southern end of the lake.

did you know...

...that Pumpnickel's Restaurant in Bolton Landing is the home of the largest cuckoo clock in the United States.

...that nearly all of the islands of Lake George are located within the town of Bolton's boundaries.

...that Bolton Landing, located on beautiful Lake George, formed on March 25, 1799, separating from the town of Thurman.

...that Bolton Landing on Lake George is the portal to discovering Lake George Island Camping. There are 387 shoreline campsites and 116 day use or picnic sites located on 44 state owned islands.

...that one of the most popular hiking trail systems is the Tongue Mountain Range in the Bolton Landing area. This system consists of approximately 25 miles of trails with many spectacular views of the lake and mountain ranges.

...that Bolton Landing has 3 public beaches which are available at no charge to visitors to the area: Hud-dle Beach off 9N, and Rogers' Memorial Park and Veteran's Memorial Park on Main Street.

the lake theatre

DINING AND ENTERTAINMENT

Famous for its unique combination of dining and entertainment, the Lake Theatre in Lake George, NY holds the distinction of being the most intimate professional dinner theatre in the entire United States. Patrons enjoy a delicious full-course meal (with a choice of four entrees), served by a friendly wait staff (no buffet line) and a contemporary comedy in our intimate theatre, where no seat is more than 30 feet from the stage. This year, enjoy not 1, but 2 incredible shows as we celebrate our 49th season in 2016!

ALMOST, MAINE, by John Cariani runs July 21-September 3. On a cold, clear, moonless night in the middle of winter, all is not quite what it seems in the remote, mythical town of Almost, Maine. As the northern lights hover in the star-filled sky above, the town's quirky residents find themselves falling in and out of love in unexpected and often hilarious ways. Knees are bruised and hearts broken but the bruises heal and the hearts mend...almost...in this delightful midwinter night's dream.

SOUTHERN COMFORTS, by Kathleen Clark runs 9/15 - 10/22, 2016. SOUTHERN COMFORTS is a funny and heartwarming December-December romantic comedy about a grumpy Yankee widower and a vivacious widow from Tennessee who find what they least expected – a second chance at love. When they decide to "tie the knot", the fireworks that ensue are funny, awkward, and enchanting. This Off-Broadway success is an affecting, late-in-life love story and a delightful mix of comedy, conflict and compromise.

The Lake Theatre is the place to go for a delightful dining and entertainment experience. Matinees and dinner performances, show-only tickets and senior discounts available. Groups and tours welcome. In residence at the Holiday Inn Resort in Lake George with a breathtaking view of the Queen of American Lakes. To order tickets, call (518) 306-4404.

Pirate's Cove
The Original Adventure Golf

Swashbuckling Fun for the Whole Family!

Looking for something fun and unique to do while you're in the region? Come visit Pirate's Cove Adventure Golf. We have TWO award winning locations nearby--our Lake George Village course offers 18 holes of fun and challenging Adventure Golf while our larger Queensbury course has TWO 18-hole courses. Both locations are a popular destination for families, couples and pirates of all ages!

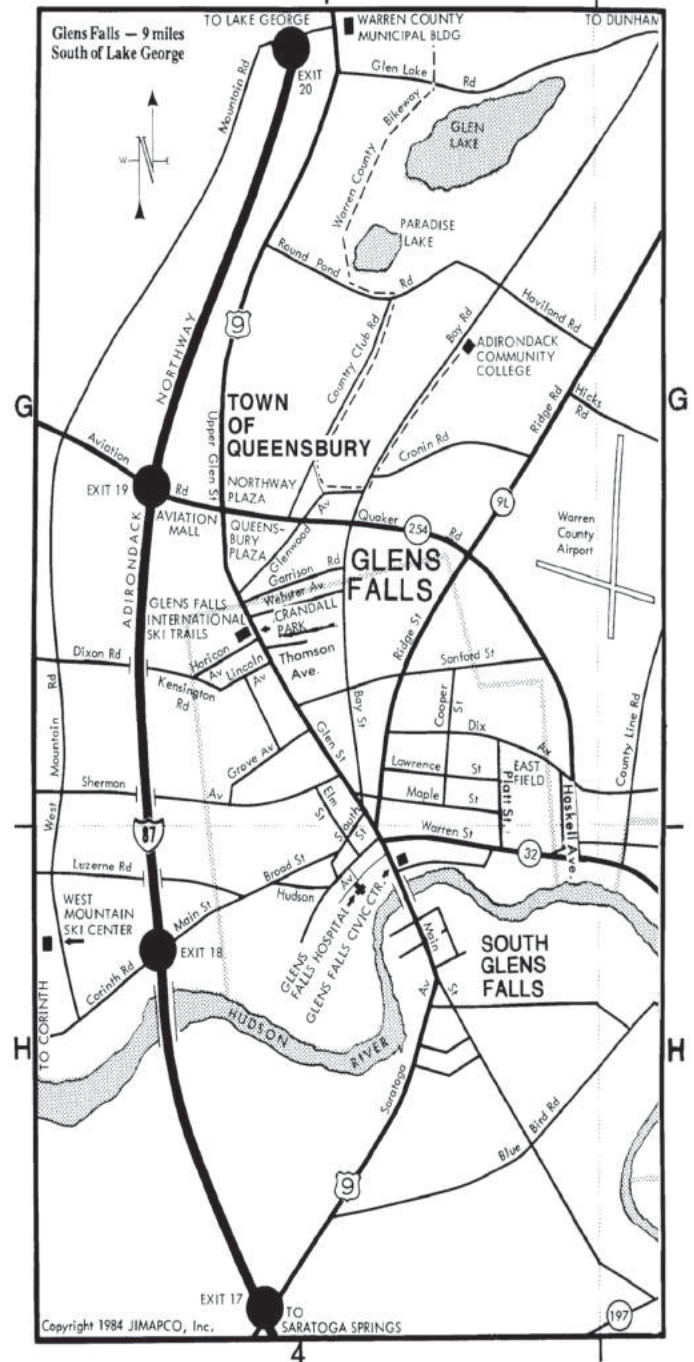

As you make your way through our courses, the adventures and legends of infamous pirates come to life. Read of the exploits of well-known pirates on our hole signs as you wind your way through mountain caves, over foot-bridges and beneath cascading waterfalls. You will glimpse these rowdy 18th century buccaneers and their pirate ships as you navigate our authentically themed settings. And young pirates receive a free bag of pirate booty after completing the 18th hole!

Pirate's Cove has over 20 locations throughout the United States--come see why our high standards of customer service, cleanliness and attention to detail keep our guests coming back year after year. Swashbuckling fun for everyone!

Warren County Bikeway

The northend of the 17-mile bicycle trail terminates in Lake George at Battlefield Park overlooking Lake George and the opposite end terminates in Fort Edward with views of a Hudson River yacht basin. The trail is a smooth pavement that is ideal for joggers, cyclists, walkers, and any other mode of non-octane use dotted with signage highlighting historical attractions with maps, photos, and paintings, all for the purpose of acknowledging and honoring the heritage of Warren County. Its varying terrain affords a most pleasant variety of scenery, wildflowers, small animals, and even deer on occasion. You'll get a fair share of uphill and downhill slopes, over bridges, through woods, and past streams and ponds.

Lake George in History

Lake George was discovered in 1646 by Father Isaac Joques, a French Jesuit missionary, who christened it Lac du St. Sacrement and it was over a hundred years later when General William Johnson re-named it Lake George in honor of his king. By 1690, the seventy-year-long struggle between England and France for control of the all-important water route to Canada.

When the French built Fort St. Frederic at Crown Point in 1731, it posed a major threat to the British installations at Ticonderoga and this was the military objective of General William Johnson when he set forth from Albany in August of 1755. Johnson carved a Military Road from Fort Lyman, which he renamed Fort Edward, to the head of the lake at what is now Lake George Village. This road through the wilderness roughly parallels today's Route 4 from Fort Edward and Route 9 north to Lake George.

On hearing of Johnson's plan to attack Crown Point, French Commander-in-Chief Baron Dieskau marched south to meet the British head on. He reached the head of the lake on September 8, 1755. Here General Johnson, together with General Lyman and Mohawk Indian Chief King Hendrik, were encamped and the three conflicts which took place that day are known collectively as "The Battle of Lake George."

The first engagement took place when troops led by Colonel Ephraim Williams and King Hendrik's Indian forces headed north on the Military Road to meet Dieskau. A quarter mile north of today's intersection of Routes 9 and 149, the French were lying in ambush, and the British were well within the trap before the first shot was fired. King Hendrick died almost at once of a bayonet wound and, a short time later, Colonel Williams was shot and killed. His will provided for the founding of Williams College, and alumni of that famous Massachusetts school have erected a monument where he fell in a wooded ravine to the east of Route 9. Look for the highway marker and footpath leading to this memorial. On the west side of Route 9, a little further south, a simple gray rock inscribed "E. W. 1755" marks the final resting place of Colonel Williams. Colonel Johnson and King Hendrik were similarly honored with a statue at Lake George Battlefield Park, the original battleground which serves today as a 35-acre state park.

The Provincials beat a hasty retreat with Dieskau in pursuit, first to Bloody Pond and then on to the center of the barricade itself where the major battle of the day took place. Dieskau was taken prisoner and his wounds treated by Johnson's personal physician. When Johnson suffered a leg wound his command fell to General Lyman, and credit for the day's victory is his. Later, Captain McGinnis with a replacement force from Fort Edward attacked some 300 of Dieskau's men at a stagnant pond along the Military Road. Legend has it that so many were slain in this encounter that the waters were stained red for weeks to come and thus the name Bloody Pond.

The winter of 1756-57 was a harsh one. Raids and counter-raids continued, and the French garrison at Ticonderoga was often under attack. The Rangers under Major Robert Rogers set fire to the outposts of the fort at one point, but

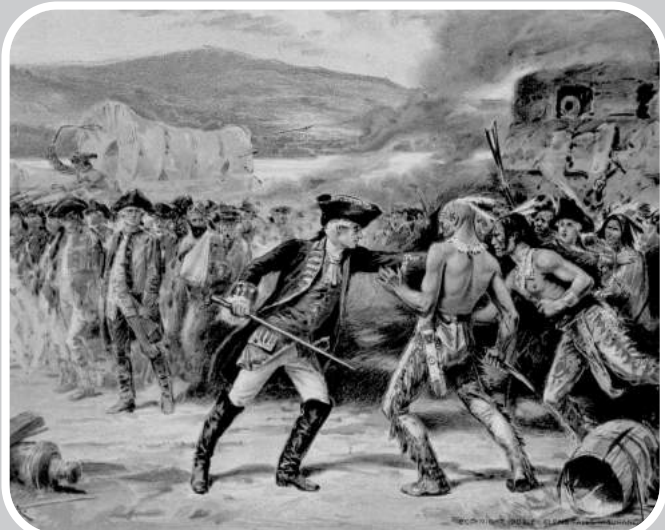

the control of the Carillon itself remained with the French. Meanwhile, General Johnson was building Fort William Henry at the head of the lake, a log and earth structure named for the Duke of Cumberland, King George III's brother. The fort successfully withstood a five-day siege by the French in March of 1757. However, history was less beneficial to the following August when the French under General Montcalm once again laid siege to the garrison in the wilderness. The fort's northwestern bastion was just about totally demolished and at last Colonel George Munro agreed to surrender, with the assurance of safe conduct back to Fort Edward for his men. But Montcalm's Indians defied their French leader and cruelly butchered and scalped not only soldiers, but their wives and children as well. Montcalm was helpless to prevent this infamous "Massacre of Fort William Henry" and his victory that day was a hollow one. The fort was destroyed and the logs, together with the bodies of the slaughtered, formed a giant funeral pyre to which the General set fire before heading north once more.

During the siege of Fort William Henry, the lives of Colonel Munro's two daughters were saved by the friendly Indians, Uncas and Hawkeye, who hid the girls in a cave under the Copper's Cave Bridge which spans the Hudson River between the city of Glens Falls and the village of South Glens Falls. This incident serves as background material for James Fenimore Cooper's classic tale, *The Last of the Mohicans*, and thus the hiding place is known as Cooper's Cave. A platform complete with interpretive signage provides for open viewing of the two tear drop cave openings. Fort William Henry, of course, has been completely restored and offers a unique insight into the days of Colonial warfare.

A short period of peace followed these French and Indian Wars but ill will was growing between the colonists and their Mother Country. In 1775, the American War for Independence got underway. Just a few weeks later the fort at Ticonderoga was seized "in the name of the great Jehovah and the Continental Congress" by Ethan Allen, Benedict Arnold and the Green Mountain Boys. The British under Burgoyne recaptured the fort at Ticonderoga two years later but this was the last military action there. On hearing of Burgoyne's defeat at Saratoga, General Powell burned Fort Ticonderoga to the ground and it was abandoned. Meanwhile, at Fort Edward, the infamous massacre of Jane McCrea became a rallying cry for the colonists throughout the countryside. When British General Burgoyne finally faced these men on September 19, 1777 at Bemis Heights, he was completely outnumbered. For three weeks he managed to hold the line, waiting for reinforcements which never came. The second "Battle of Saratoga" took place on October 7 and Burgoyne retreated to Schuylerville where he was not only outmanned but cut off from his supply line. Ten days later Burgoyne surrendered to General Horatio Gates, an event termed by historians everywhere as "the turning point of the American Revolution." It was deemed one of those "signal events which shape the destiny of nations" because France, from that time on, openly intervened on the side of the revolutionists. Without her assistance, the American bid for liberty may well have been in vain. The fighting continued for four years before the final victory at Yorktown, but the success at Saratoga strengthened a desperate people at a time when failure could have meant disaster. The Treaty of Paris was signed in 1783 and the thirteen original colonies were granted their independence from England. Lake George played a vital role in the ultimate creation of this United States of America.

ANTIQUES VS. VINTAGE: OUR HISTORY IN YOUR HANDS

By Pat Martin, Home Farm Antiques
at the Antiques Market Place

A war is going on ~ Antique vs Vintage. "Where's your time-worn, venerable patina?" Antique said to Vintage. And Vintage said to Antique, "Where's your fun?" The Antiques Market Place, set in the historically rich Adirondacks, follows Switzerland's suit - sworn neutrality. We find it a joy to bring both the distant past and more recent times alive for our customers. Whether over 100 years old or under 50 years old, all of our items have the ability to teach history ... with no yawns incurred! Along with the treasures our dealers unearth, we gather interesting facts and provenance for our customers to carry home with their purchases. In our shop, you'll find anything from 18th century ammunition to 19th century sporting goods to early 20th century garden decor, and you'll find dealers who have done their research and will be glad to share it with you.

In both worlds, antiques and vintage, there is the responsibility of preserving history. The creation of an object is a reflection of the cultural and social mores of that time. An embroidered tablecloth from the Depression Era shares as much knowledge about customs and trends of that day as does an 18th century powder horn from the French and Indian War. Considerable effort was put into the creation of each, along with the same human desire to communicate current times and the same need for placing pleasing aesthetics into functional pieces. The antique would be more expensive than the vintage because of rarity, more so than the age. Rarity often determines price, however it does not determine importance or collectability. That value is a personal matter and we honor it.

If you want to bring culinary history alive, the Antiques Market Place has everything from early 19th century

dough bowls and butter churns to mid-20th century vintage kitchen tools, linens and doodads. If you want to bring military history alive, we have medals and swords and knives and uniforms. Interested in how holiday decorations evolved over the years? We love Santas and hearts and bunnies. Jewelry? Yup ~ from many periods. Adirondack sporting history? Excellent examples at the Antiques Market Place. Paper, ephemera and books on subjects so diverse, you'll love browsing our shelves.

Have an exciting history lesson while at the same time stocking up on all things that add dimension to your lives and that can still be used as intended. Go Antique/Vintage shopping in a shop stocked with good old stuff in an area steeped in American history, at the Antiques Market Place in the beautiful Lake George region.

did you know...

...that Lake George was formed about 10,000 years ago when a melting glacier blocked an ancient river bed which headed south from the Northwest Bay Brook to Bolton to the Hudson River and another river flowing north from the Narrows area into Lake Champlain. With no escape, the waters from the two rivers rose and created the "Queen of American Lakes."

...that the body of water commonly known as Lake George has an approximate area of 28,200 acres, an elevation of 322 feet, a maximum depth of over 200 feet, a length of 32 miles, a maximum width of almost 4 miles, about 44 square miles of surface area, almost 20% of its water from underground springs, and a surprising 8 years to exchange its volume of water. Since the lake flows south to north, the northern end in Ticonderoga becomes the LaChute River and gradually drops around 215 feet into Lake Champlain.

Aurea's Unique Gifts

Glenwood Manor Antiques & More

Glenwood Manor Antiques & More has evolved from an Antique Shop to a destination shopping complex. The antique shop was established in 1983. The business is in a beautiful Georgian Manor which is part of the total shopping experience. The building has 8 fireplaces, 11 bathrooms (really only 1 functioning), hand hewn beam ceiling living room, and hardwood floors throughout. There are 3 floors and 34 rooms with tons of nooks and crannies. It is the oldest and largest antique center in the Glens Falls, Lake George Area.

In order to survive, we followed national trends by allowing a small percentage of collectibles and retro items. We have 32 enthusiastic dealers. We offer a wide spectrum of antiques from furniture, glass, crocks, jewelry, fishing, tools, toys, paintings, prints, clocks, records, books, cookbooks, linens and much more, and all at realistic, affordable prices. We do not misrepresent our items making false claims about our inventory or our shop. We try our best to identify age and quality, not claiming to be the best expert in any field. We want our customers to feel comfortable and at home to shop at your leisure with no pressure from our staff. Well behaved children and small pets are openly welcomed and usually there are treats available for them. Browsers are always welcomed, who knows what you might find.

There is another component of our complex which includes an up-scale gift shop, "Aurea's Unique Gifts". Aurea's Unique Gifts offers many locally crafted items such as Bark Eaters Chocolate, jewelry, quill art, purses, scarfs, home décor, greeting cards and unusual items from around the world. Fair Trade and repurposed items have become big focus when shopping for our unique inventory.

You can spend an hour or a day with us. If that isn't enough we are located just off the bike trail, with an ice cream shop "Sprinkles" in our backyard. Now what more could you ask for in the ultimate green shopping experience.

Hot Air Ballooning

by Rob Swinton • Majestic Balloon Flights

Many visitors to the Lake George-Adirondack Region explore the area through various hiking trails and through beautiful scenic drives. There are some that have chosen to view the area in a different way. They've enjoyed a hot air balloon flight. A hot air balloon flight is one of the most amazing experiences that one can have. The panoramic view of the area below gives the passengers a "birds eye" view of the upstate New York Region.

Ballooning began in the 18th Century in France. Early uses of the balloon include using it for observation in the Civil War. Although the equipment used in ballooning has been modernized over the years, the concept has remained the same; and is one of the most unique experiences in the world of flight.

Everyone who takes a balloon flight will experience it differently. Although there are many shared thrills and emotions that are common to all, most people enjoy the tranquility of a flight while others find it exhilarating. The quietness of the flight is only interrupted by the sound of the burners.

The adventure begins when you meet the pilot and the crew. They will take you to the launch area, where the crew and pilot will prepare the balloon for inflation. After inflation, the pilot will instruct the passengers to get into the basket, and the flight will begin. The flight lasts approximately one hour. During the flight, the passengers will experience a 360 degree view of the area below. The balloon travels with the

wind, so the feeling is very smooth and peaceful. Throughout the flight, the chase crew remains in contact with the pilot, so upon landing the chase crew is there to greet the pilot and the passengers.

After landing, the pilot and crew will deflate and pack away the balloon. Most pilots will then have an "after flight celebration" that includes a champagne toast and a picnic with the crew and passengers.

One of the special things about a balloon flight is that it's a "hands on" activity for all. Some pilots will often invite and encourage the passengers to help the crew and become part of the whole experience. And because of the size of the basket (an average basket will hold 3-4 passengers), the experience is very intimate and personal. Flights are not recommended for persons with health concerns or women who are pregnant.

A hot air balloon flight is weather dependent. The weather has to be cooperative for the flight to occur. The winds should be light, and there should be no rain. Flights can be year round but occur more frequently between spring and fall. Just after sunrise and a few hours before sunset is the most ideal time that balloons can fly.

If you decide to plan a flight, plan for approximately a 3 hour excursion. Wear comfortable clothing and dress for the temperature of the day. You should also wear shoes suitable for walking in a country field. Because of the limited space in the basket, reservations are required.

Many people decide to take a flight after receiving a gift certificate, or seeing a balloon in flight, or even attending a balloon festival. Whatever the reason, it is definitely an experience that one will never forget.

Hiking Trail

HADLEY MOUNTAIN

A good open summit provides dynamic views of the Great Sacandaga Lake to the south; the Catskill Mountains beyond the lake; and Vermont's Green Mountains to the east. To get there, take Route 9N to Hadley and then 3 miles north on Stony Creek Road to Hadley Hill Road on the left. Proceed slightly over 4 miles to Tower Road. Then turn right for 1.5 miles to the Hadley Mountain trailhead. Follow the red DEC trail marker.

Travel Tips

- Always carry several plastic clothespins and a night light. The clothespins are handy for many things, from clipping the motel-room window drapes together, to rinsing out some things and being able to hang them over the clothes bar or towel rack. As for the night light, motel rooms are usually very dark, so this light eliminates having to turn on a bright light when you have to get up during the night.

- Fold a damp washcloth over a few ice cubes and wrap in foil. If heat and grime make you uncomfortable while traveling during the day, use to freshen your face and hands.

- Pack a family first-aid/medical kit. Checklist: alcohol wipes or antiseptic towelettes, adhesive bandages of different sizes, sterile pads, ointment or lotion for relief of insect stings and bites, anti-itch medication, tweezers, thermometer, gauze or cotton balls, small scissors, personal/precription medicines, and carrying case.

A Day of Adventure... A Lifetime of Memories
North River, NY Near Lake George (35 min)

Rafting On The Hudson: Family Fun to High Adventure

Whitewater Rafting on
the Hudson River is a 17
mile wilderness
adventure. We begin on

the Indian River and continue through the Hudson River Gorge. With great whitewater and spectacular Adirondack scenery, it is the longest stretch of whitewater in New York and is considered the "Grand Daddy" of N.Y. rivers.

The Hudson River rafting season begins in April and runs into October. Spring is "Big Water" season. It will provide you with all the excitement and heart pumping adrenaline you can handle.

As we move into late Spring and early Summer, water levels and weather conditions mellow a bit. The river becomes a perfect trip for anyone with an adventurous spirit. When rafting on the Hudson began, this was the end of rafting for the year, but now, when Summer arrives, dam releases on Tuesday, Thursday, Saturday, and Sunday, insure that the excitement continues. The warm weather and guaranteed whitewater provides an ideal adventure for the entire family.

In the Fall rafting continues through Columbus Day and the gorge is turned into an aurora of scenic splendor not to be missed.

Hudson River Adventure Center

Rafting may have drawn you to the North River/ North Creek area, but it is just one of many exciting activities in this beautiful, and less crowded part of the Adirondacks. The Hudson River Adventure Center, located at our rafting base in North River, allows you to expand your Adirondack adventure. We have an Aerial Ropes and Zip-Line course, a wooded paintball area, canoes for guided and unguided adventures, and more. Allow us to help plan your adventure vacation in the Adirondacks.

HUDSON HEADWATERS HEALTH NETWORK

Keep Your Children Safe When Playing Outdoors

by Sunit Misra,
Student, University of Vermont Larner College of Medicine

Encouraging your children to play outdoors and keep their bodies active will provide them with countless physical and mental health benefits. Healthy lifelong skills can also be established when kids play outside. Some outdoor activities come with risk, however, and taking proper precautionary steps to keep your children safe is a smart thing to do. Luckily, most injuries and accidents can be prevented with some guidance.

WATER SAFETY

Always supervise your children around water. If you can, enroll your children in a local learn-to-swim program to teach them proper water safety. Take precautionary steps for children who've recently become mobile: don't allow them to play alone near puddles and remove any buckets of water that might be around your house to stop leaks, undrained sinks/faucets.

OUTDOOR SAFETY

Apply bug spray to arms and legs (but never on your children's face) when spending time outdoors to prevent harmful insect bites or stings. If your child has a severe allergy, carry an epi-pen or asthma inhaler. Apply SPF 30 or higher sunscreen 30 minutes before heading outdoors. Use a cold compress or calamine lotion to soothe sunburnt skin. Aloe Vera is a great option if you are looking for something more natural.

ON-THE-GO SAFETY

Always wear a seatbelt when riding in a vehicle. Teach your children to wear seat belts when being transported by other families and friends. Use car seats. All children under the age of four must ride in child safety seats; all children must ride in child restraint systems until their 8th birthday or until he or she reaches the top height or weight limit allowed by your car seat's manufacturer. The back seat is safer for children than the front seat. Ensure sports gear has been inspected to be safe. Wear helmets when biking or skating. The helmet should fit well (not too big and not too small) and be comfortably secured with a chin strap. Remind children to look both ways before crossing the street. Have them demonstrate to you how to do this to make sure they understand.

Growing children are impressionable and will follow examples set by parents and role models. This spring and summer, play safe!

North Creek and North River ADIRONDACK HISTORY!

by Dick Carlson

The North Creek and North River area is rich in the history of the Adirondacks. And today, attractions have sprung up to enhance and enjoy this slice of time gone by. Probably the most famous incident in the area was when Teddy Roosevelt learned at the North Creek train station that he was to be sworn in as President of the United States after the death of President McKinley on September 14, 1901. Visit the North Creek Station and take a ride on the Saratoga & North Creek Railway – just like Teddy Roosevelt.

Skiing History and North Creek are synonymous. The famous ski trains came to North Creek in the 1930's and 1940's and skiers enjoyed the "Ride up – Slide down" skiing of the time. Visit the North Creek Depot Museum to see exhibits telling the story of the history of snow trains and the development of skiing at Gore Mountain. Recreate the actual drive the ski trucks and busses took – bringing skiers up to Gore Mt. Today, the end of the road is The Garnet Mine Tour at the old Bar-

ton's Garnet Mine up Barton's Road in North River. Modern ski transport is the Gondola on Gore Mt. (operating daily July 7 – September 2) for scenic rides and great hiking destinations.

While The Barton's Garnet Mine is the longest operating mine in the area, mine history goes further back to the Hooper Mine in North River near Garnet Hill Lodge. Take a short hike to the mine located on state land near Garnet Hill. Sample some other short scenic hikes to Balm of Gilead Mt and William Blake Pond, all perfect for families.

Not to be undone – the nearby Hudson River is rich in the early history of the Adirondacks. For over a hundred years, the loggers of the day used the river to float trees and pulpwood to the mills in nearby Glens Falls. With the advent of trucking in the 1950's, the log drives ended. But today, you can recreate the trip the river men took on the Upper Hudson River with a white-water rafting adventure. Summer scheduled dam releases are on Tuesday, Thursday, Saturday and Sundays. Numerous outfitters are located in the North River and North Creek area.
